YEAR-2 CS APPRENTICESHIP (CO-OP) CANDIDATE — 2026

MATÉI DE SAINT LÉGER

Software Engineering (Track A) • Python, TypeScript, C/C++, SQL & AI Tooling

Biarritz / Anglet, France (Own Vehicle)
Basque Coast • Hybrid • 100% Remote
matei64200@gmail.com
github.com/Mateidslx (46 Merged PRs)
88.96.47.180:8765/portfolio.html

Serious, organized Computer Science undergraduate at **IUT de Bayonne et du Pays Basque (Anglet, France)** seeking a **Year-2 Software Engineering Apprenticeship (Track A — Application Design, Development & Validation)**. Author of **46 upstream merged Pull Requests** in production open-source repositories (Twenty CRM 40k★, BasedHardware/omi 8k★, FinTech TS), backed by **2 industry internships (HUPI, Marra)** and **2 full months of language immersion in England**.

OPEN-SOURCE CONTRIBUTIONS & ENGINEERING PROJECTS

Open-Source Contributor — Twenty CRM (40k★), Omi (8k★) & FinTech

2025 – 2026 • 46 PRs

Python (FastAPI), TypeScript (NestJS, React, Next.js, Vitest) — Merged Upstream

- **twentyhq/twenty (#26490, #26502)**: enforced strict RBAC permission guards (VIEWS / LAYOUTS) on metadata mutations and fixed batch-delete payload capture in twenty-orm.
- **BasedHardware/omi (6+ merged PRs)**: eliminated CWE-209 raw exception leaks across API gateways, patched OAuth callback XSS, and guarded CLI OverflowError edge cases.
- **Dupdap & Moistello FinTech (38 PRs)**: fixed critical USD-to-crypto payment URI bug, built idempotent concurrent 401 interceptors, and wrote modal focus-trap Vitest suites.

Security Scanner MCP — HTTP Headers & RFC 9116 Auditor

Python 3.12 • MCP

Published on Smithery.ai & Glama.ai Public Registries (MIT License)

- Built and published a Model Context Protocol server auditing CSP, HSTS, X-Frame-Options, server version disclosure, and **/.well-known/security.txt** compliance.

Kai Linux Infrastructure, Kai Academic, V-Bot Chess & Mathballx

Ubuntu 24.04 • CS Labs

Python, Asyncio, SQLite WAL, Systemd, OpenCV, Stockfish UCI, ISO C99, JS 60fps

- **Kai (24/7 Ubuntu 24.04 VPS)**: topological Python DAG orchestrator, persistent SQLite WAL provenance store, systemd watchdogs, and SHA-256 + Playwright deploy checks.
- **Kai Academic & V-Bot**: interactive study portal used by CS classmates, OpenCV/DOM chessboard FEN + Stockfish NNUE bridge, and 60fps JS physics simulator.

EARLY INDUSTRY INTERNSHIPS

HUPI (IT, AI & Data Science Company) — Observation Intern

June 2024 • 2 weeks

- Immersed alongside **software developers and data scientists** on the Basque Coast: observed agile engineering teamwork and practiced **Python, JavaScript, HTML, and CSS**.

Marra (Technical CAD Design Office) — Observation Intern

Jan. 2023 • 1 week

- Shadowed a technical drafter-designer: discovered blueprint engineering precision, structured spatial modeling, and studio workflow standards.

EDUCATION

Bachelor of Technology in CS (BUT Informatique) — UPPA Anglet

2025 – 2028 • France

- **Year-2 Target**: Track A (Application Engineering) Co-op / Apprenticeship.
- **Coursework (S1 & S2)**: Valgrind-verified ISO C99, C++ OOP, Graph Theory, Networking, 3NF Merise/PostgreSQL, Linux Systems, Web UI.

French Scientific Baccalauréat — Lycée Polyvalent Cantau (Anglet)

2022 – June 2025

- Senior Specialties: **Mathematics & Computer Science (NSI)**. Junior Specialty: **Engineering Sciences (SI)**.

TECHNICAL SKILLS

Programming Languages

`Python 3.12` `TypeScript` `JavaScript` `ISO C99` `C++` `SQL` `Bash`

Backend, Web & AI Tooling

`FastAPI` `NestJS` `React / Next.js` `HTML5 / CSS3` `MCP Servers` `WebSockets`

Data, Systems & Verification

`PostgreSQL` `SQLite WAL` `3NF Modeling` `Ubuntu 24.04` `Docker` `Systemd` `Valgrind` `Vitest / Pytest` `Playwright` `Git / GitHub`

LANGUAGES & UK IMMERSIONS

- **French**: Native speaker.
- **English**: Daily technical collaboration + **2 full months of immersion in England**:
  - **Brighton** (1 month — July 2025)
  - **Bournemouth** (1 month — July 2024)
- **Basque (Euskara)**: Basic proficiency.
- **Spanish**: Written & spoken comprehension.

WORK ETHIC & MOBILITY

- **Rigor & Punctuality**: systematic pre-commit testing (Valgrind, Vitest, Pytest) and strict respect for deadlines.
- **Calm & Organized**: structured problem-solving and constructive engagement in code reviews.
- **Teamwork**: collaborative Git workflows across large open-source repos and university team projects.
- **Mobility**: own vehicle across Biarritz, Anglet, Bayonne, Bidart + Hybrid / 100% Remote.

INTERESTS

- **Chess (~1500 Elo)** & strategy games: tactical calculation under clock pressure and author of V-Bot (Stockfish UCI).
- **Regular Sports** on the Basque Coast.
- **Peer Sharing**: building open study tools for fellow CS students (Kai Academic).
